SUMMARY

Full-stack developer with a passion for creating products from the ground up. Skilled in both front-end and back-end development, I take on challenges of any complexity and see projects through to completion. I thrive in team environments, enjoy solving complex tasks, and continuously learn and adapt to new technologies and methodologies to deliver innovative solutions and high-quality products. References are available upon request.

EXPERIENCE

FULL STACK

EVOMAKE TEL-AVIV: 2023/SEPTEMBER - PRESENT, ISRAEL

- Build dynamic and responsive user interfaces using React and Next.js to create seamless user experiences.
- Develop scalable server-side applications using Node.js, with MongoDB as the primary database.
- Implement API development, user authentication, and manage server-side business logic while ensuring data integrity with MongoDB

FULL STACK INTERN

EVOMAKE TEL-AVIV: 2023/JUNE - SEPTEMBER, ISRAEL

- Development and maintenance of websites
- Transferred an existing product to a new technical base
- Carried out a multilingual translation of the website

EXECUTIVE DIRECTOR

KINO ALLIANCE STUDIO : 2022 - 2023, RUSSIA

- Managed the visual aspects of film production.
- Worked with personnel, locations, and overseeing the complete organization of film shoots.

TECHNICAL PROJECT

Hairdresser booker - [Github](#) | [Demo](#)

Created a web application that organizes the workdays of hairdressers or salons.

- Developed backend using TypeScript, Node.js, and PostgreSQL, resulting in a robust and scalable server-side infrastructure.
- Implemented frontend using TypeScript, React, and Redux on Vite, ensuring a fast and responsive user interface.
